

Building the Future Now.

For nearly five decades, Alamon has been a key resource for Communication, Utility, Energy and Enterprise technology deployment throughout the U.S.

PROFILE

An experienced partner that delivers results.

By producing consistently excellent outcomes for clients, Alamon has earned the opportunity to assist the nation's largest service providers and Fortune 500 companies with their network needs. From AT&T and Avangrid on one end of the alphabet, to T-Mobile, Verizon, and WWT on the other, Alamon has been trusted with the infrastructure of industry leaders on a wide variety of projects across the U.S. **MORE >**

PROFILE

If you want
something done
right, ~~do it yourself.~~

CALL ALAMON.

Whether it's deploying 5G equipment for the nation's top wireless carriers, or comprehensively handling cabling and IT equipment installation and relocation needs of enterprise corporations, our clients call on us because we do a lot of things right. We're known for our strong commitment to safety, and for providing the highest levels of quality, service and craftsmanship on every project. When it comes to work involving data infrastructure and the complex technologies shaping our future, calling Alamon is the right call.

PROJECT EXAMPLES

AVANGRID

- Pole Inspection, Treatment & Reinforcement

CON EDISON

- Pole Inspection, Treatment & Reinforcement

CONSOLIDATED COMMUNICATIONS

- FTTH Installation
- Aerial Drop Placement

FRONTIER COMMUNICATIONS

- DC Power Engineering and Installation, Central Office Engineering and Installation, Fiber Characterization, Fiber Splicing, and more in multiple states.

LIBERTY MUTUAL INSURANCE

- Continuous remote office support since 1998, including installation of every piece of IT equipment at Liberty Mutual U.S. facilities.

LUMEN

- Preferred Central Office Services vendor in 10 states

- FTTH Installation
- Splicing (Fiber & Copper)

PLATEAU

- FTTH Installation
- Buried Drop Placement
- Splicing (Fiber & Copper)

T-MOBILE

- Ongoing 5G equipment upgrades in California and Nevada.
- Set up of temporary cell sites (mobilization, temporary power, microwave backhaul installation, cellular equipment installation and testing) supporting the 2022 Major League Baseball All-Star Game

VERIZON

- Cellular sites upgraded to 5G technology in Inglewood, CA and surrounding areas, supporting Super Bowl LVI.

EMPLOYEE-OWNED

As an employee owned company, Alamon is made up of long-term, career-oriented team members vested in the success of every project that we're entrusted with.

SERVICES

No marketing. No kidding.

Alamon began in 1975 as a telecom services provider operating from a single warehouse in Kalispell, Montana. Our growth and expansion of service offerings has been driven largely by referrals from satisfied customers (there was no formal Marketing Department until late 2020).

Today, Alamon has satellite offices in 11 states, and provides proven solutions for a wide variety of infrastructure technology needs.
